

HILTON
INDUSTRIAL VACUUMS

Cyclonic Separator

Bulk Waste Collection Unit

2x Filtration • 2x Capacity • Wet Capability

EASILY HANDLES LIQUID AND FINE DUST WASTE

- Coating Compounds
- Concrete
- Rockwall / GIB
- MDF / Wood
- Grinding Dust
- Spills
- Floods
- Composites
- Flour / Starch
- Sand and grit

The addition of the **HILTON Cyclonic Separator** extends the tuned Air Filter Path Technology and waste handling capability of your Dust Eater Vacuum. Choose from the 2 Cyclonic Head options, 4 different Body options and 2 Auto-Empty mechanisms for the setup that simplifies your waste handling processes in both wet and dry situations.

Double your filtration. Even very fine dust is no problem. You will clean more, stop less, and extend the working life of your vacuum filters.

Double your Capacity. Have the freedom and flexibility of the capacity you need with the cyclonic separator in either the 60Ltr or 210Ltr options.

Waste Handling – Wet & Dry. Handling of wet and dry waste has never been so easy or quick. In conjunction with a HILTON vacuum you have a wet vacuum on steroids to tackle any spills.
